LANGUAGE

- English – Fluent

Full-Stack Developer and IT Support Specialist with 5+ years of experience designing, developing, and maintaining responsive web and mobile applications across multiple industries. Proficient in frontend, backend, and cloud technologies, with a strong foundation in IT infrastructure and technical support. Experienced in delivering reliable, scalable, and user-focused solutions while collaborating effectively in fast-paced remote environments.

PROFESSIONAL EXPERIENCE

IT Support and Software Developer (Freelance)
Self-Employed · Remote

2025 – Present

- Deliver full-stack web and mobile application development for clients across different industries.
- Reduced average client system downtime by ~30% through proactive hardware, software, and network troubleshooting.
- Perform end-to-end system setup, cloud configuration, and ongoing user support for small businesses.
- Consistently deliver projects on time and within budget, maintaining 100% client retention rate.

Software Developer & Virtual Assistant
Awaays · Remote

2023 – 2025

- Developed and maintained 3+ web and mobile application products used by hundreds of end users.
- Streamlined internal digital workflows, improving team productivity by an estimated 25%.
- Provided technical support and administrative coordination to a distributed remote team.
- Collaborated cross-functionally using Agile methodology to deliver features on schedule.

Software Developer
Skillits · Lagos, Nigeria

2021 – 2023

- Designed and developed responsive web applications using modern JavaScript frameworks.
- Implemented intuitive UI components and RESTful backend APIs, reducing page load time by ~20%.
- Collaborated directly with stakeholders to translate requirements into functional product features.
- Maintained code quality through regular testing, debugging, and peer code reviews.

IT Support Specialist
China Civil Engineering Construction Company (CCEC) · Lagos

2018 – 2020

- Provided technical support to a workforce of 100+ staff, covering hardware, software, and network infrastructure.
- Installed, configured, and maintained computer systems and network equipment across multiple site locations.
- Achieved an average issue resolution time of under 2 hours for critical support tickets.
- Delivered user training sessions that reduced repeat support requests by ~40%.
